Bridgeton landfill smelly project delayed due to rain

<http://www.ksdk.com/news/article/375345/3/Smelly-Bridgeton-landfill-project-delayed>

BRIDGETON, Mo (KSDK) - The rain delayed a **construction**  project at the Bridgeton landfill that could make the smell even worse for neighbors.

Bridgeton Landfill LLC said the rain is forecast through Thursday, so the company and its **contractors**  will meet to determine when it is safe for the reinforced concrete pipe abandonments project to begin.

Construction crews will remove concrete pipe sections. The landfill's president says this is all in efforts to decrease the smell, but first it must get worst. [Residents there say they are not ready for that.](#)
